# **VB-1030H**

## Rubber Oval Mount (Deflection: 5mm)

name of VBO-30 product has changed to VB-1030H)

### Features

The VB-1030H is a rubber mount with an increased static deflection and Oval hole at the center to maintain the stable operation of the equipment against horizontal vibration. It has the hardness of 55±5 and with the M8 bolt, it can load up to 25kgf.

- Usage For small pumps and small ventilators
  - For small motors and measurement equipment

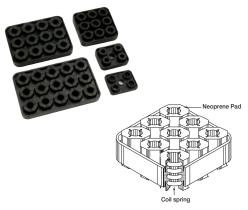

### Dimension & Selection Guide

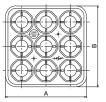

| Туре     | Capacity(kgf) | Hardness(Hs) | Deflection(mm) | Dimension(mm) |    |    |    |       |  |
|----------|---------------|--------------|----------------|---------------|----|----|----|-------|--|
|          |               |              |                |               |    | Н  | H1 | Bolt  |  |
| VB-1030H | 30            | 60±5         | 5.0            | 30            | 27 | 66 | -  | M8X30 |  |

(NOTE) The mentioned size and scale can be altered to improve the quality performance and capacity of the product without any notice.

# **SRP**

## **Spring Rubber Pad** (Deflection: 5.5~7mm)

### Features

It is a highly-efficient product that provides 3-4 times higher vibration isolation efficiency than the conventional rubber pad by using the metal spring's low natural frequency and all of the advantages of anti-vibration rubber, such as multi-axis pavement, high frequency and noise isolation effects. By lowering its center of gravity as low as possible, the load can be evenly distributed on the pad.

- Usage For facilities and equipment (PUMP, FAN, AHU)
  - For industrial machines (Press, Shearing Machine)
  - For horizontal pipes
  - For vertical pipes Anchor and Guide
  - For all kinds of equipment installed on a solid base

### • Dimension & Selection Guide

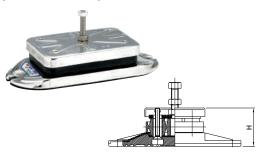

| Type     | Capacity | Hardness | Deflection | Weight | Dimension(mm) |     |    |  |
|----------|----------|----------|------------|--------|---------------|-----|----|--|
| туре     | (kgf)    | (HS)     |            | (kg)   |               |     | Н  |  |
| SRP-25   | 25       |          |            | 0.02   | 57            | 71  | 19 |  |
| SRP-50   | 50       |          |            | 0.04   | 37            |     |    |  |

# **SRM**

# **Spring Rubber Mount**

(Deflection: 5.5mm)

## Features

It is an improved, mount version of SRP type spring rubber pad taking advantage of antivibration rubber and metal spring. SRM type enables control of the level to reduce horizontal deflection. Moreover, its external housing is made of stainless steel to prevent corrosion when installed outside.

- Usage For facilities and equipment (for example, PUMP, AHU and FAN)
  - For industrial equipment (including Press, Shearing Machine and Lathe)
  - For all kinds of equipment installed on a solid base
  - For vertical and horizontal pipes
